Interests

International Travel, Gaming, New Technology

About me

Formerly a seasoned hospitality manager with a Bachelor degree in Business Management, I proactively started my professional life in the US by starting my own small international marketing company. Though we were profitable I have always been interested in computers and programming. I am currently enrolled in the Software Engineering program at Bloc, I'm looking for a software developer position at a company that can provide room for growth.

Portfolio

Arago

Portfolio

Arago is a social media application that allows users to upload and share picture. I created User Profiles to see the list of photos that have been added by the user.

Built with: **Ruby on Rails, Devise, Bootstrap, Pundit and Carrierwave.**

Guipedia

Portfolio

Guipedia was the first of my student solo projects. Given a short list of parameters I was tasked with building an application that allows users to create their own wikis.

Built with: **Ruby on rails and Devise.**

BlocJam

Portfolio

Bloc-Jams Angular is a digital music player project application built during the Bloc Front-End Web Developer course.

It is made up of **HTML, Angular JS, and CSS.**

Work Experience

2016 - Present Co-Founder

Plutus Associates

International marketing and consulting firm. Founded company in 2016 in partnership with Shixin & Lamp to connect customers globally with our offering of international conferences and trade-shows.

Ran every day operations including Finance, Operations, Business Development, Marketing and Sales to increase revenue.

2013 - 2016 Deputy Director

Villa Médicis Beaune

Hospitality company providing luxury living communities to senior citizens in France. The company also expanded into the hotel business in 2015.

Ran hotel business operations which included marketing, building a client base and servicing clients to ensure an excellent experience. Brought in an additional 20% of revenue and earned the company a Booking.com Award.

Supervised/trained a staff of 20 people across various business units. Implemented company-wide policies and procedures to ensure a safe and clean living community.
